## SAFETY OFFICER

We are looking for a Stevedore Safety Officer to ensure all stevedoring operations comply with OHSA, port authority regulations, and ISO standards. The successful candidate will promote a strong safety culture, conduct risk assessments, monitor operations, maintain Safety Files and SOPs, and has the authority to stop unsafe work to protect all personnel

## Responsibilities

- Enforce HSE policies in compliance with ISO 45001, ISO 14001, OHSA, SAMSA, TNPA, and TPT regulations
- Conduct risk assessments, monitor vessel operations, and oversee safe use of equipment and PPE
- Exercise authority to stop unsafe work practices and lead incident investigations
- Train stevedore teams on safety procedures, emergency response, and SOPs
- Manage SHE Committee meetings and facilitate communication between management and employees
- Create and maintain the company Safety File and Standard Operating Procedures
- Prepare safety reports and coordinate internal/external audits for compliance
- Act as first point of contact during emergencies and coordinate response with port authorities and medical services
